Unique, Online Multimedia Studies on the Constitution!!!

“Reviving the Constitution”

Our “flagship course” of ten online, multimedia sessions available in the “Leaders’ and Laymen’s Version” and the “Student Version” (includes tests, moot court activities, etc.). This course presents the worldview perspective on the Constitution and the Culture War, explaining how Humanist courts have commandeered the Constitution and used it to attempt to bludgeon American Culture into a Humanistic society. Also included is a practical examination of weapons that Constitutionalist can use to revive the Constitution and the culture.

“Blackstone Blitz Short Studies”

1. **“Courting Justice: How to Revive the Constitution”** – An overview of the campaign necessary to Revive our Constitution – to recapture it from the hands of Humanist/Reconstructionist judges and restore it to its Judeo-Christian foundations. Included are the “3 Cs” principles we must pursue, as well as an examination of our enemy and a detailed plan for action –our “Reviving the Constitution Plan.”
2. **“Our Dynamic Duo: The Constitution and the Declaration of Independence”** – A study focusing on the contents of the Constitution, with insights and information not found in typical “Constitution studies.” The concluding segment offers a unique analysis of the Constitution and Declaration of Independence – their interrelationship and a specific examination of their Judeo-Christian characteristics.
3. **“Blackstone Blitz, I.: The Constitution: A Culture War Victim”** – An explanation and elaboration of the worldview approach to understanding the courts, Constitution, and Culture War. This approach delivers a smashing blow to central elements in the Reconstructionist campaign against the Constitution – the myths of “separation of church and state, relativism, diversity/pluralism, and tolerance” (phrases morphed into Humanistic meanings by our foes).
4. **“Blackstone Blitz, II.: Defining and Defending the Judeo-Christian Worldview and Constitutionalist Theory”** – An in-depth definition and defense of Constitutionalist principles (a vital component of the Judeo-Christian worldview) with which we Constitutionalist MUST be armed to repel the Reconstructionists.
