Dear Fellow American,

Have you heard about the "Amero" or "Totalization" or "North American Union" or "NAFTA Superhighway"?

These strange words may soon become household names in the United States -- unless you and I rise up and say, "No! We will not permit the peddlers of such alien notions to change the America we love."

"Amero" is the name of the new currency planned to replace our U.S. Dollar when it is merged with the Mexican peso.

"Totalization" is the buzz word to put illegal aliens into our Social Security System on better terms than U.S. citizens get -- which will bankrupt the system when baby boomers retire.

"North American Union" is the plan to open our northern and southern borders so there will be free movement of goods, services, money, and people between the United States, Canada and Mexico. There'll be no need for smugglers any more -- all aliens can come in.

"NAFTA Superhighway" is the giant toll road that will bring slave-labor products from China through a Mexican port and up into heartland America, where they will destroy our remaining manufacturing jobs.

What is going on?

Let me tell you. The globalists are trying to make American workers compete in a global economy against Third-World wages of 30 cents an hour -- and make U.S. taxpayers provide Social Security benefits for illegal aliens.

This is being done without any law passed by Congress -- without any treaty ratified by the Senate -- without any public hearings. It's done by press releases and executive orders.

These plans will destroy American freedom, Constitution, prosperity, and standard of living. I am more afraid for the future of our great nation than ever before because powerful people are pushing these bad policies. That's why I need your immediate help and financial support.

Let me give you the facts.

In Waco, Texas on March 23, 2005, President Bush met with Mexico's President Vicente Fox and Canadian Prime Minister Paul

Martin, and then issued a press release committing us to a "Security and Prosperity Partnership of North America" (SPP), with "Working Groups" to write the details.

Two months later, on May 17, 2005, the powerful Council on Foreign Relations (CFR) issued a 59-page document outlining a 5-year plan for the "establishment by 2010 of a North American economic and security community" with open borders so that people and goods can "flow freely" between the three countries.

This CFR document linked the goal of a North American Community to Bush's SPP, and even **demande**d that the United States "implement the Social Security Totalization Agreement negotiated between the United States and Mexico."

One month later, on June 27, 2005, Homeland Security Secretary Michael Chertoff went to an SPP meeting in Ottawa, Canada, to "facilitate the flow of traffic across our borders." (Maybe that's why Chertoff is trying to avoid building the border fence ordered by Congress in the Secure Fence Act.)

Then, on March 31, 2006, President Bush met in Cancun, Mexico, with his Mexican and Canadian friends to celebrate the first anniversary of the Security and Prosperity Partnership.

Meanwhile, 20 Working Groups of the three countries have been quietly operating in the U.S. Commerce Department. They are re-writing our Administrative Law regulations to make them agreeable to Canada and Mexico. These new regulations are not submitted to Congress or to the American people.

It's pretty clear, isn't it, why President Bush won't stop illegal aliens from coming over our southern border! He wants North American economic integration and open borders, and his corporate friends want cheap labor.

That's why President Bush is still pushing Congress to pass some version of the Kennedy-McCain bill calling for amnesty for illegal aliens and bringing in more millions falsely labeled "guest workers," and making them eligible for U.S. Social Security benefits. You and I cannot allow this to happen!

"Totalization" is one of the biggest rip-offs of U.S. taxpayers that anyone has ever proposed. Because of a Freedom of Information lawsuit, we just learned the details of Bush's plan to put illegal aliens into our Social Security system.

Americans must work 10 full years to be eligible for Social Security benefits, but Totalization would enable illegal aliens to get benefits after only 18 months of work in the U.S. The horrendous cost of this plan will bankrupt Social Security when baby boomers retire.

The NAFTA Superhighway will not be a new interstate to accommodate Americans. It will be a tollroad (bypassing cities) to bring slave-labor products from China in sealed containers direct from a Mexican port to Kansas City, Missouri, where Mexico will operate the customs facility.

China will be the big winner of the NAFTA Superhighway! The tolls will be collected by foreigners! The contract for the segment from Mexico to Oklahoma, called the Trans-Texas Corridor, has already been signed with a Spanish company. Cintra Concesiones de Infraestructuras de Transporte, S.A. bought the right to operate it as a 10-lane tollroad and collect tolls for the next 50 years.

Remember the uproar when we heard about the proposed sale of 22 of our port operations to Dubai Ports World, a Middle East company? "We the people" got the sale cancelled!

But the sale to foreigners of our infrastructure is going ahead every day, right under our noses, with almost no publicity. Foreign companies will be collecting tolls for 99 years on Virginia's Pocahontas Parkway, for 75 years on the Indiana Toll Road, and for 99 years on the Chicago Skyway.

Is America for sale?

Please sign the enclosed petition to Senate Minority Leader Mitch McConnell urging him to oppose all plans to let President Bush's SPP grow into a "North American Community," or to replace the U.S. dollar with the Amero, or to let U.S. regulations be re-written by Canadian and Mexican "Working Groups."

Senator McConnell may be the only leader left in Washington with the power to save America.

America must not go down the European road, where globalization, open borders, and economic "integration" led to giving up their sovereignty to a European Union run by unelected bureaucrats in Belgium and judges in Luxembourg.

America has survived so many challenges. But our greatest may be before us now. I'm not ready to give up! I have already trained our best Eagle leaders to take on this battle!

But I need your help. I need you and thousands of other loyal Americans to stand with me and tell the politicians to "Stop Selling Out Our Sovereignty, Our Freedom, Our Jobs, Our Social Security, and Our Highways!"

* Please sign the enclosed petition to Senator McConnell and return it to me right away. I will combine it with tens of thousands of other petitions from across the country and take them to Senators who can stop these un-American

actions. Senator McConnell needs to know that ordinary Americans like you will not stand for our laws being made by Mexican and Canadian bureaucrats.

- * We plan to interrogate all presidential candidates and get them to commit to oppose Totalization, a North American integration, the Amero, and a NAFTA Superhighway to benefit China. Your membership in Eagle Forum will help force all the candidates to pay attention – and to answer these questions.
- * We plan to get expert speakers on these subjects on TV and radio. We need you, and tens of thousands of concerned, dedicated Americans like you, to get involved in letter-writing, fax-writing, email and lobbying efforts.

Unfortunately, we are up against big money in this battle. The White House is backing a fundraising campaign to raise money from corporations -- at \$50,000 to \$250,000 each -- to promote amnesty and "guest-workers" (like the Kennedy-McCain bill) that will give more jobs to foreigners rather than Americans.

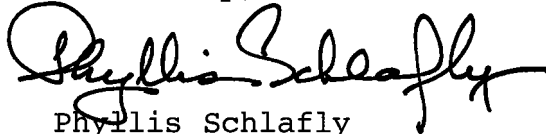

That's why I need your most generous contribution today -- to save America from all these goals of the globalists. It's a matter of our freedom, our country, our jobs, our money, and our future.

Whatever you can send – whether it is \$25, \$50, \$100; or if at all possible as much as \$500 or \$1,000 – every penny will go into the fight to preserve America and stop the globalists and their cronies in Big Business from selling America.

Your gift will be a tremendous help in blocking the "totalization" scam that will bankrupt Social Security. And, your help now, at this crucial moment in our nation's history, will go to raise an army of dedicated patriots, like you, to fight these outrageous schemes.

Please be as generous as you can. Thank you for your help and support.

Faithfully,

Phyllis Schlafly

P.S. Please sign the Petition and return it to me right away. "Totalization" of Social Security could go into effect any day by the stroke of President Bush's pen! And when you return it, please enclose the largest contribution to Eagle Forum you can. Please act today!

PETITION TO U.S. SENATE MINORITY LEADER MITCH McCONNELL TO PROTECT AMERICAN SOVEREIGNTY AND FREEDOM

Whereas, the globalists and "open borders" groups are determined to create some kind of economic integration or union of the three North American countries, in which the U.S. would have only one out of three votes; and

Whereas, this plan would invade the sovereignty of the United States and make us subject to corrupt bureaucrats and biased tribunals in foreign countries; and

Whereas, the so-called "Totalization" scheme would bankrupt the Social Security system and discriminate against U.S. citizens; and

Whereas, a limited-access foreign-controlled toll road (sometimes called the NAFTA Superhighway) would discriminate against U.S. motorists and property owners, and also be the largest potential access for terrorists and drug traffickers; and

Whereas, the combination of these policies could mean the end of the United States as a free, independent and sovereign nation;

Therefore, be it resolved that the undersigned citizen of the United States of America requests that you use all your powers as Senate Minority Leader to halt any and all funding or authorization to accomplish any of the above goals.

I urgently request that you assume the leadership of a movement in Congress to preserve, protect and defend our Constitution, our sovereignty, our borders, and our right of self-government to have our laws made only by our elected representatives.
